

Tindersticks, Willow (featuring Robert Pattinson)

Willow, where are you hiding now?
Willow, where are you hiding now?
in the ... light
on the tree
spiders and a centipede
crawl across your hands
across your knees

Willow, do you walk cross the sand?
Willow, .. the waves crash and fall
and their finger tickles
atropine
du you feel the rushing forward
though you're standing still

Willow, are we rushing forward
are we standing still?
Willow, are we rushing forward
are we standing still?
