

# Token, Dentures

Stupid

Ayy, braggin' like you independent, you just in the worst place  
No one's trying to sign you in the first place, pure praise  
'Cause they know I'm one of one, son of a gun  
The clip is my birthplace, it's a different workplace, worst taste  
You terrible, wordplay, I'm worth, I'm worth the wait  
Like [?], verse shake the stereo, yours ain't comparable  
We're paid to carry a hearse, grave then burial, worst case scenario, bird brain  
I'm married to the bread, I braid a bitch's hair when I get head  
Baby I'm rich and my OG he's a crip  
You know what that mean?  
We ain't never in the red  
Fuck it, got a million dollar deal I had the leverage in a sense  
And I'm still as independent as it gets, legend in the flesh  
I'm impressed and the legends are impressed  
Already got to Cole and Kendrick call me, "Welcome to the mix"  
Got an Angel on my right and got Devil on my left  
Got a girl with cellulite, ass thicker than the rest  
Lines all over her body and she look just like a ref  
But she ain't blowin' a whistle, I don't gotta go in depth  
I don't gotta, I probably got me a problem but we blessed  
Holla holla if it's drama then it's drama  
Baby said I'm too laid back, what's the problem?  
Ain't a problem, told her every comma I get calmer  
Comma, comma, comma like a sentence long  
A lot of y'all are bettin' on  
Guap, guap very long  
If my money could talk say yadda yadda yadda et cetera  
Jump the curb and then I'm gone, button turn the engine on  
Young and worth the money, word to Zuckerberg  
I spend it on undercover shirts like I'm 'bout to work the Pentagon  
Then I'm gone, back it off, bread long, Italian  
Bitch so bad Elton John taking glasses off  
Back it off, laugh it off, ha-ha-ha-ha  
Now I'm gettin' jewish bread my grandma call it Challah  
Bitches wanna climb my money tree like they koala  
Fuck her then I disappear and then I text her "Ta-da"  
Token got the flow to curve a weapon like katana  
So my self esteem is steaming it could probably fill a sauna  
Tryna put a dolla' on top of dolla', my politician is awesome  
I probably love Benjamin Franklin more than his wife and mamma  
The highest star I got 'em trippin' of me like ayahuasca  
I'm the product so I got 'em gathered around the fire like they tryna be loved, "The Way You Lie", R  
Only thing I don't find myself inside of is baby mamma drama  
He drive vagina, divide and conquer oh did someone say something?  
I might even go pop just to say "Fuck 'em" (Yeah)  
Used to think that I was a loser and now I ain't lose nothin'  
Now that I'm winnin' I think I'm much less confused from it  
Lookin' like I hit the bounty, lucrative and little rowdy, do not bring your bitch around me, homie  
Newest kid up in a county, view to river with the balcony, you would think I lived in Maui  
Used to talk about the things I wanted and then y'all allowed it  
Now that I got the shit they don't want kid to talk about it  
Never Too Different that's the label and I'm the boss around it  
People got tattoo of it before I even talked about it  
That's some legendary shit, ho (Right)  
And I ain't even half my potential  
And don't compare me to them dudes on the trend list  
They don't love rap, they just love to get attention  
Pass the videos around like a town horse and do some witty gimmick but how long are you around  
I don't play no fuckin' character it's just Toke  
Ten years from now let's see who evolved most  
Hop in the motherfucking ghost  
Top of the motherfucking morning

Cop in the motherfucking neighborhood do more killing than warning  
Pop, everyone hit the corner, they don't wanna see me out of bounds  
I got homies smarter than me but I got a voice that counts  
Tell Jay to check it out, tell Wayne to check first  
Tell Google to check again and update my net worth  
'Bout to have all of them youngins salutin' me head first  
And my name all in the old heads mouth like dentures  
Never Too Different (Yeah!)

(Nox Beatz made it)
