

# Token, FBI

Yeah, turn it up, up, up  
Okay, okay  
Ay

I walk on stage and I act like pastor was my past life  
Throw some water on the crowd now  
Bitches think they got baptized  
Sweat running down my back like why she hugging me that tight?  
She just told me I'm a handsome devil  
Eh baby you're half right

Hop off the stage then right to plane, my life is a whirlwind  
The ass on the stewardess make me wonder why I gotta got a girlfriend  
I fly out a chick from my city, show her how pretty the world is  
If she don't say "Thank you" I fly to France and leave her in Berlin  
Good guy in a bad mood, I don't really drink but realistically I start soon  
Is it not a hit for the radio to start to whole lotta popcorn, baby get the smart food  
In the dark room I just wanna fuck a little, she just wanna argue  
This the only way to get rid of my stress, so if you don't fuck you don't care about me yet

Hold secrets like I hold these chicks  
You don't get them from me (Okay)  
NDA in my DNA, I don't tell nobody (Okay)  
Siren on the car like I'm about to help somebody (Okay)  
FIB to the FBI, I don't tell nobody  
Hold secrets like I hold these chicks  
You don't get them from me (Okay)  
NDA in my DNA, I don't tell nobody (Okay)  
Siren on the car like I'm about to help somebody (Okay)  
Ay FI-Ay-to-the-FBI Ay I don't tell nobody Ay

Everybody wanna know my home base (Home base)  
Keep it on the low, you gotta locate (Locate)  
Look up all the bodies in the cold place  
Put it to your dome, get out my domain  
Kill 'em in the morning like I'm OJ (OJ)  
Kill 'em in the morning with my OJ  
Wicked what the fuck I let my clothes say  
This ain't Obey, this is Dolce  
Gone with old ways, gone with old days  
Phone is cracked now, lost my phone case  
Fuck your due dates, tell 'em I'm on all the time like Guantanamo Bay  
Aloha baby, como estas , como esma, [?] to rotate  
Find a new girl, she falling for me, I fall but don't break, the domino way  
This my shit, you called in, told my girl that we are in  
But you can't mean the world to me, I went and seen of it  
This my shit, happy with it  
Been a bit of time since I asked permission  
Rather do it anyway and ask forgiveness  
If I fuck up, it was accidented

Hold secrets like I hold these chicks, you don't get them from me  
(Okay)  
NDA in my DNA, I don't tell nobody (Okay)  
Siren on the car like I'm about to help somebody (Okay)
