

Tokimonsta x Iza, Pinching

If they could see me now
They'll know what's going on
It took me by surprise

The fact there you were here
It doesn't make it feel
I thing you my on skin
In fear

Or maybe is out of a deal
I'm closing my eyes baby
We should ...
I co scare
Coz lately
I don't remember the thrill
I'm not supposed to say this
You're not supposed to be here

We all imagine what will say
Love will not gonna dare
Love will not gonna dare
One day
We should know how to behave
I don't know...
To say

If they could see me now
They'll know what's going on
It took me by surprise
The fact there you were here
It doesn't make it feel
I thing you my on skin
