

Tokio Hotel, Live Every Second

From today on the days are only half as long
Nothing left to laugh about
Yesterday is 1 million years ago
The day before already wiped out

Time's been replaced by a countdown
The sun is shinin' day and night
Sorry, I was just thinkin' twice
Wake me up 'cos time is
Runnin' out, runnin' out

Live every second, Here and now
Don't let go, Live every second
Here and now, Don' let go
Before it's too late, Before it's too late

From today on life is just a tv-show
You can even get a planet for free
The whole galaxy is chilling out
And time laps are all you can see
Don't look back 'cos now is all that counts

Remember that, before you forget
Sorry, I was just thinking twice
Wake up 'cos time is
Runnin' out, Runnin' out

Live every second, here and now
Don't let go, Live every second
Here and now, don't let go

Wake up, wake up
Wake up, Stop it now

Wake up, Wake up
Wake up, Wake up
Wake up, Wake up!!

Live every second, Here and now
Don't let go, Live every second
Here and now, Dont let go
Before it's too late, Before it's too late

Wake up, Stop it now
