

Tokio Hotel, We Found Us

Fire in the sky, shadows unite
The world is outside, we hide
Beats fight the wall
Close the door, close the door
Searching for the cure on the floor

(x2)
WE FOUND US, US
In this club, club
WE FOUND US, US
It hurts but it feels right

Tears falling down
On the ground, on the ground
Following the sound of the crowd
Reflection of the light
In your eyes, in your eyes
We are rising high, tonight!

(x2)
WE FOUND US, US
In this club, club
WE FOUND US, US
It hurts but it feels right

We don't care, we don't care
It hurts but it feels right

Peace and love in this club tonight
We found love in this club tonight
Girls and girls and boys and boys

(x2)
WE FOUND US, US
In this club, club
WE FOUND US, US
It hurts but it feels right
