## Tokio Hotel, What If

I am down for something
Come pick me up in your car
Don't let me down for nothing
I wanna know who you are
And if you down for something
I want a piecie of yourt heart
Come let's just not do anything
Give me a piece od the stars

We high as fuck nowhere to be No second chance in this galaxy It could be you It could be me So let us be:" you and me!

What if I 'd love you till the end You'd never be alone again /2x What it So what if, baby

I try it once, it's nothing Get you back in the car We're getting lost in some new place At least we know who we are

We high as fuck nowhere to be No second chance in this galaxy It could be you It could be me So let us be:" you and me!

What if I 'd love you till the end You'd never be alone again /2x What it So what if, baby
