

Tokio Hotel, WHEN WE WERE YOUNGER

We had the same dreams
No one saw what we could see
We were younger
We were younger
Life in black and white
Became colorful and bright
We were younger
When we were younger
I've been living like that
I've loving like that
All I ever wanted was something real and honest
I've been tripping like that
Sometimes I lost my head
Nothing that I wanted but it had to happen
Cause some things never change
We're feeling out of place
Our hearts still beat the same
From Berlin to LA
The same stars we're under
Like when we were younger
Like when we were younger
Moving on and looking back
Holding on to what we have
And the ocean is between us
I'm looking at the sky
As the years are passing by
Like the colors of the leaves
Are changing the streets and
I've been tripping like that
Sometimes I lost my head
Nothing that I wanted but it had to happen
Cause some things never change
We're feeling out of place
Our hearts still beat the same
From Berlin to LA
The same stars we're under
Like when we were younger
Like when we were younger
I'm looking at the sky
As the years are passing by
I'm looking at the sky
Like when we were younger
Cause some things never change
We're feeling out of place
Our hearts still beat the same
From Berlin to LA
The same stars we're under
Like when we were younger
I'm looking at the sky
Like when we were younger
As the years are passing by
Like when we were younger
