

Tokio Hotel, When You're At A Loss

Nobody left
Who really knows me
My world is breakin' down
Tokio And there is a happy end
Not supposed to cry 'bout you
Hotel I know immortal we are not
However you said once
When you're at a loss I'll be an angel
Schrei For you alone
And appear for you in ev'ry deep dark night
Album And then we will fly far away from here
We will never loose us again
When
Until you appear the first time
I imagine that from above you
You're Cry for me with the clouds
I wait an eternity for you
At It's not so endless however
Because you have said once
Loss
