

TOLA, Atmosphere

when there's nothing left to say
you stare into my soul
you manage to see even more than you did before
it's unfair how you make me die
without your affection I don't know how to live my life

one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere
one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere

not a mistake, familiar ache
go on and detach
leave you with a scratch
it's unfair collecting flaws
my liquid thoughts now gain a form

one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere
one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere

glue myself back to the outline of my body
hope to make my shadow stay in one place
but it keeps on moving
Seem to know all the syllables
and I've learned the alphabet
yet I tie my shoelaces with doubt effort energy
it's in my muscle memory

one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere
one our future look bright
I could barely open my eyes
now it's clear that everything here
was empty like the atmosphere
