

Tom MacDonald, Snowflakes

If you lie to the gavernment
They'll put you in prison
But when they lie to all of us
It's called being a politician
You think guns away will save our kids from the killings
But you're pro-choice, abortion kills way more children

If America's so terrible and racist
It's probably isn't safe to encourage immigrations
Just sayin''

All the contradictions are embarrassing
You know who hates America te most?
Americans

Trigger warninhgs used to be on TV for seizures
And now they're everywhere to protect
Milenials' feelings

He, she , his , him , hers, teh m , they
Screw a pronoun'
Cause everyone's a retard these days

I hear 'em preaching at a protest
That hateered's the problem
But hating straight man, white folks
And Christians is common
Coca cola telling people
They should be less white
They preaching tolerance
But if you disagree, they fight

There's a race war here
Elections bassed on fear
Black lives only matters once every 4 years
Soldiers died for this counter nad
Every one of us benefits
