

# Tom Odell, Black Friday

I wanna go party,  
I wanna have fun,  
I wanna be happy,  
Could you show me how it's done?

You look so pretty,  
Pretty like the sun.  
I could watch forever  
While you shine on everyone.

It's Black Friday  
And we're in a Black taxi,  
You take my hand  
And hold it gently on the middle seat.

It's all in my head,  
It's all in my mind,  
I'm so selfish  
And you're so kind.

It's all in my head,  
Baby, i can't breathe,  
I look in the mirror,  
What is happening to me?

I wanna better body,  
I want better skin.  
I wanna be perfect  
Like all your other friends.

You look so pretty,  
Pretty like the wind.  
Every time you touch me  
I feel adrenaline.

It's Black Friday,  
The End of the week.  
You take my hand  
And hold it gently up against your cheek.

It's all in my head,  
It's all in my mind,  
I see the darkness  
Where you see the light.

It's all in my head,  
Who do I trust?  
I thought that you loved me,  
What is happening to us?

What is happening to us?  
What is happening to us..
