

# Tom Petty And The Heartbreakers, Luna

(Tom Petty)

White light cut a scar in the sky  
Thin line of silver  
The night was all clouded with dreams  
Wind made me shiver  
Black and yellow pools of light  
Outside my window  
Luna come to me tonight  
I am a prisoner  
Luna glide down from the moon

The clouds are all silver and black  
Floating around me  
Luna come into my eyes  
Luna surround me  
With black and yellow pools of light  
Fall by my window  
Luna come to me tonight  
I am a prisoner  
Luna glide down from the moon

The clouds are all silver and black  
Floating around me  
Luna come into my eyes  
Luna surround me  
With black and yellow pools of light  
Fall by my window  
Luna come to me tonight  
I am a prisoner  
Luna glide down from the moon
