## Tom Petty & The Heartbreakers, Luna

White light cut a scar in the sky
Thin line of silver
The night was all clouded with dreams
Wind made me shiver
Black and yellow pools of light
Outside my window
Luna come to me tonight
I am a prisoner
Luna glide down from the moon

The clouds are all silver and black Floating around me Luna come into my eyes Luna surround me With black and yellow pools of light Fall by my window Luna come to me tonight I am a prisoner Luna glide down from the moon
