

Tom T. Hall, Time Takes Care Of A Few Things

Time takes care of a few things love takes care of the rest
Cheer up my lady cheer up my friend there's no reason for you to look so depressed
I'd like to be perfect I know you would too we're only human I guess
Time takes care of a few things love takes care of the rest

Life has its problems they come and they go
When troubles are dropped at you door
I'll come and get some and haul them away
That's what an imperfect good friend is for
Time takes care of a few things...

(ac.guitar)

We're trying each day to be better some way to do what life asks us to do
It's just a contest it's just a trap you're better than me and I'm better than you
Time takes care of a few things love takes care of the rest
