You set the fire in me C-C It's like I've learnt how to breathe easily Photographed for a fashion magazine It's just you, your God and me

I know it can't be easy for you

You set the fire in me C-C, you set the fire in me

Why go home when you'd rather see me Feels like all my heart can do now is bleed We should go down to the sea It's just you, our God and me

I know it can't be easy for you

You set the fire in me C-C, you set the fire in me

You set the fire

You set the fire in me C-C, you set the fire in me
