

# Tom Wehrle, You Don't Know

I've found the end and I hit the wall  
But you don't know, cause you don't fall  
Always on your feet  
The one everybody wants to be  
But I see you wanna scream

You run to lock your door  
Cause you can't take anymore  
You follow everyone around  
Like there's nothing in this town  
That you don't know

I feel strong but it don't take long  
To see that I'm weak, down on my knees  
But you don't know, no not at all  
Cause you can't see me  
When I'm not on your TV screen

Just when you think it's over  
You'll see a shooting rainbow  
If you will wait and see  
It will come eventually  
Not like the movie screens  
Come on, this is reality

You run to lock your door  
Cause you can't take anymore  
You follow everyone around  
Like there's nothing in this town

Yeah, you run to lock your world  
Cause you can't take anymore  
You've followed everyone around  
With something still not found  
Cause you don't know
