

# Tommy Page, Turn On The Radio

Friday night and things just ain't right  
Me and my baby just had a fight  
I'm down and blue, don't know what to do  
There's only one way to get my message through  
Pick up the phone and call the dj  
I need a dedication right away  
Something special, something so true  
This one's going out from me to you

Chorus:

Turn on the radio, they're playing our song  
Turn on the radio 'cause we're gonna dance

All night long

I need to find a moment in time  
When she's listening to the words from this  
Poor heart of mine  
Just to let her know I really love her so  
And somehow I just gotta let my feelings show

Do you remember the night we met  
I knew it was the start  
Of something baby I would never forget  
This was the song that stole our hearts
