

TONES AND I, FALL APART

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no
No, we don't wanna fall apart
When we laugh and it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no
No, we don't wanna fall apart

Free my mind, baby
Waiting on a new salvation
In my mind
Freedom is worth fighting for
I am trying to start a new mind nation

And then we do woo-pooh, ohhh
I am here sittin' old
And i am thinking
About the Times i spent with you lately
And ta we do woo-pooh, ohhh
Now i got a long flight in the night of my life quick
Now i am dazy

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no
No, we don't wanna fall apart
When we laugh and it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no
No, we don't wanna fall apart

Missing pieces, baby
We'll find our resolution someday
But there's no one like you, baby
No one's gonna heal our heartbreak

And then we do woo-pooh, ohhh
I am here sittin' old
And i am thinking
About the Times i spent with you lately
And ta we do woo-pooh, ohhh
Now i got a long flight in the night of my life quick
Now i am dazy

And we say that we almost tried
We never really got the chance to say goodbye
But we don't wanna fall apart, no
No, we don't wanna fall apart
When we laugh and it always shows
I never really think I'll ever let you go
But we don't wanna fall apart, no
No, we don't wanna fall apart
