

Tony Garcia, Forever

I can see in your eyes
That you've been wanting me
And now that we're together
You have shown me what I need
The way you make me feel
When you're lying next to me
It captivates my soul
And I can't let you go

Forever till the day I die
You will always be the one by my side

Can't let you go
I need you more and more
Girl can't you see
That you're the one for me
I need your love
I've got to have your touch
As long as we're together
We will last forever
Forever

Don't you feel what I feel
When I wrap you in my arms
Embracing you so tight
I want you here all night
I'm giving you my love
You're the only one I need
So baby can't you see
You belong here with me

Forever till the day I die
You will always be the one by my side

Can't let you go
I need you more and more
Girl can't you see
That you're the one for me
I need your love
I've got to have your touch
As long as we're together
We will last forever
Forever

Forever till the day....
