

# Toto, Extinction Blues

World of fear  
Dying sun  
Amber tears  
Wars to be won  
World grown old  
Lost to man  
All alone  
All but forgotten  
Same extinction blues  
You've heard before the  
Same old news  
You and i  
Last chance  
Age of ice  
Frozen romance  
Time repeats

Death to life  
Heartbeats  
Save us tonight  
Same extinction blues

It's great to be optimistic  
And look at the world  
Through rose colored eyes  
Tell you what not to wish for  
Mountains don't move  
When you want them to  
Same extinction blues  
You've heard before  
The same old news  
Extinction blues
