

Tove Lo, I'm Coming

the night's still young
I lay wide awake now
I'm Lucy in the Sky
I'm Queen of the Clouds
yeah, I know she's hard
cross my heart that I woke up
cause I know she's cute
but, please, baby, hold down

cause
I am coming /5x
I am almost there
I am coming /5x
hold down, you know that
I am coming /5x
baby, I think am in love
the taxi, the hallway
the elevator, staircase
falling, falling

you and me now
please, baby, please just hold down
15 thousand feet up in the air
I see it all so clear
I know she's cut
but it needs to be you and me
you and me

cause
I am coming /5x
I am almost there
I am coming /5x
hold down, you know that
I am coming /5x
baby, I think am in love
the taxi, the hallway
the elevator, staircase
falling, falling

cause
I am coming /5x
I am almost there
I am coming /5x
hold down, you know that
I am coming /5x
baby, I think am in love
the taxi, the hallway
the elevator, staircase
falling, falling
