

Tracy Bonham, Every Breath

I see you runnin' and it's all over now
The devil's comin' and he's showin' us how
He's goin' down on the street light, it's such a cool sight
The lizard king is here and where are you now?
The monkey brain is here, he's showing us how
He's going down on the cool right and I am loosing sight
And every breath is like the one before
Yeah, it's like the one before
You get it right, you breathe no more
Sold my shadow on the blackest of nights
Sometimes, it pushed me right out of the light
It's going down on the get right and I am losing
You're here to tempt me and it's all I can do
To keep from running, just to try something new
I'm going down on the cool ride and I am right behind
And every breath is like the one before
Yeah, it's like the one before
You get it right, you breathe no more
No more
No more
No more
Oh, every breath is like the one before
Yeah, it's like the one before
You get it right, you breathe no more
Oh, and every breath is like the one before
Yeah, it's like the one before
You bank on it, you breathe no more
No more
No more
No more
