

Train, Call Me Sir (ft. Cam, Travie McCoy)

when I ride by myself
I don't ever got to help
but when I roll up with her
everybody calls me sir
no matter how long I stay
they never ever know my name
but when I walk in with her
everybody calls me sir

northern California
Same old Friday night
tent to be invisible
Underneath this city lights
when I met my baby
Felt like I stuck gold
now they treat me like royalty everywhere I go
when I ride by myself
I don't ever get no help
but when I roll up with her
everybody calls me sir
no matter how long I stay
they never ever know my name
but when I walk in with her
everybody calls me sir

I ain't going nowhere
unless he's there with me
cause I don't stand in line no more
ad missions always free
he could break the law
he could break your heart in two
but I promise that you won't care
when he smiles at you

when I ride by myself
I don't ever got to help
but when I roll up with her
everybody calls me sir
no matter how long I stay
they never ever know my name
but when I walk in with her
everybody calls me sir
