

# Train, Call Me Sir (ft. Cam, Travie McCoy)

when I ride by myself  
I don't ever got to help  
but when I roll up with her  
everybody calls me sir  
no matter how long I stay  
they never ever know my name  
but when I walk in with her  
everybody calls me sir

northern California  
Same old Friday night  
tent to be invisible  
Underneath this city lights  
when I met my baby  
Felt like I stuck gold  
now they treat me like royalty everywhere I go  
when I ride by myself  
I don't ever get no help  
but when I roll up with her  
everybody calls me sir  
no matter how long I stay  
they never ever know my name  
but when I walk in with her  
everybody calls me sir

I ain't going nowhere  
unless he's there with me  
cause I don't stand in line no more  
ad missions always free  
he could break the law  
he could break your heart in two  
but I promise that you won't care  
when he smiles at you

when I ride by myself  
I don't ever got to help  
but when I roll up with her  
everybody calls me sir  
no matter how long I stay  
they never ever know my name  
but when I walk in with her  
everybody calls me sir
