Travis Randy, I Did My Part

I tried my best

I gave my heart

I took no rest

Time will tell

If I left my mark

But I'll know full well

I did my part

When I look down that road

What Do I see

My childern's children looking

Right back at me

When they look back at me(and I'm)

Long gone away

Will they think kindly of me

When they hear me say

I did my part

I tried my best

I gave my heart

I took no rest

Time will tell

If I left my mark

But I'll know full well

I did my part

When I look down that hall

What do I see

A little baby crawling

Right back at me

I cannot walk for him

I cannot run

But I can hold his hand

And show him how it's done

I did my part

I tried my best

I gave my heart

I took no rest

Time will tell

If I left my mark

But I'll know full well

I did my part

Build a fmaily

Build a city

Build a country

Build a world

Time will tell

If I left my mark

But I'll know full well

I did my part

But I'll know full well

I did my part
