

# Travis Tritt, Did You Fall Far Enough

As I watch you while you're sleeping  
You don't know what I'm going through  
Dealing with all my emotions  
And wondering if your love is true  
You've given me no cause to doubt you  
And I know passion burns in your heart  
But does that same fire keep on burning  
In the hours that we spend apart  
If you knew the question  
That burns in my mind  
Then you'd know why I worry so much  
I can't help but wonder  
When we fell in love Sweetheart  
Did you fall far enough  
There's something I feel when I touch you  
And that's when I really get scared  
'Cause I know there's men who would die for  
The feeling I'm feeling right here  
Oh I'll be tormented forever  
Unless I can give my fear up  
I've got to stop acting so foolish  
I've tortured myself long enough  
If you knew the question  
That burns in my mind  
Then you'd know why I worry so much  
I can't help but wonder  
When we fell in love Sweetheart  
Did you fall far enough  
If you knew the question  
That burns in my mind  
Then you'd know why I worry so much  
I can't help but wonder  
When we fell in love Sweetheart  
Did you fall far enough
