

# Treaty Oak Revival, In Between

It's been a problem  
Since I've hit rock bottom  
I'm hoping we can make things right  
My mind is wandering  
You're looking hotter than  
West Texas summertime  
Back in the day  
We had our day in the shade  
But now things ain't lookin up  
It's plain to see  
That we were meant to be  
But now I don't give a fuck

I wish you'd bring a little more to the table  
I wish you'd tell me something good  
I'm willing to waste my time  
And walk that line way longer than I probably should  
Go on and tell me what you're wanting  
Go on and tell me what you need  
Cause I put up a hell of a fight  
Just to get caught right  
In the middle of the in between  
I wish you'd tell me something good

That empty bottle looks kinda how you left me  
'Cause there ain't no good left inside  
I stopped the loving you  
Way before you asked me to  
I was just along for the ride  
And you ain't opposed  
To digging up bones  
Bringing up the things from your past  
But either way  
I think it's safe to say  
That this thing ain't gonna last

I wish you'd bring a little more to the table  
I wish you'd tell me something good  
I'm willing to waste my time  
And walk that line way longer than I probably should  
Go on and tell me what you're wanting  
Go on and tell me what you need  
'Cause I put up a hell of a fight  
Just to get caught right  
In the middle of the in between  
Why don't you tell me something

I wish you'd bring a little more to the table  
I wish you'd tell me something good  
I'm willing to waste my time  
And walk that line way longer than I probably should  
Go on and tell me what you're wanting  
Go on and tell me what you need  
'Cause I put up a hell of a fight  
Just to get caught right  
In the middle of the in between

I wish you'd bring a little more to the table  
I wish you'd tell me something good  
I'm willing to waste my time  
And walk that line way longer than I probably should  
Go on and tell me what you're wanting  
Go on and tell me what you need  
'Cause I put up a hell of a fight

Just to get caught right  
In the middle of the in between  
I wish you'd tell me something  
I wish you'd tell me something good
