

Treaty Of Paris, Good Year

In September you were still having doubts about
If by November you would finally have it all figured out
Then december brought you right back here
Yeah, Decemember was the end of another year

[chorus]

So if January marks the start
And February plays its parts
We'll only have to wait untill March to know
It's gunna be a good
Such a good year, oh

In april you felt you were ready
Maybe May will be the month you want it to be

[chorus]

Cause if January marks the start
And February plays it's part we'll only have to wait untill march to know
It's gunna be a good year Such a good year cause were all a little over due
For a good year
Yeah this year still holds a lot of hope for you
They'll be highs and lows good-byes hello's make-ups and break-ups I told you so's
Well rise and shine its not a crime to go to sleep late and wake up on time
For this year, for this year

[chorus]

If January marks the start And February plays its part we'll only have to wait till march
For a good year, such a good year cause were all a little over due
For a good year, yeah this year still holds a lot of hope and I know it's gunna be a good a year and
For a good year, such a good year
