

# Trembling Blue Stars, To Keep Your Heart Whole

I thought it would be  
So easy for me  
To keep your heart whole

I thought it would be  
The easiest thing  
To keep it in one piece

I thought not breaking it in two  
Would be a simple thing to do  
A simple thing

I thought it would be  
So easy for me  
The easiest thing

That I loved you too much  
Far too much  
For it not to be

Thought it would be  
The easiest thing  
The easiest thing

I wonder do you know  
I wonder do you know  
If you still love me?

And if you ever come close  
And have you ever come close  
To coming back to me

It's no secret I still love you  
I wonder do you know  
If you still love me

I thought it would be  
The easiest thing  
To keep your heart whole  
To keep your eyes dry  
To never drop your hand  
To always hold it tight

I'm sorry, so sorry  
For everything

I'm sorry, so sorry  
For everything

I'm sorry, so sorry  
For everything
