

# Trent Monk, Pray

The sacrifice we realize  
As the only thing that saved our lives  
So we give ourselves to Him  
But we say there's only so much time in the day  
It's sometimes too hard to find the time to pray  
So many other things we think we need to do

But all we see and all we hear  
Can't we see the signs are clear?  
Look at the road the world's gone down  
Can't we see time'

(Chorus)

To let his praise resound  
As we all gather 'round  
Let's lift our hands and pray  
And call His name  
As we fall down on our knees to pray

It seems this world I tumbling down  
Can we even turn this thing around?  
You might ask yourself  
'Can He really hear what I have to say  
And have I really been called to pray?'

With all we see and all we hear  
Can't we see the signs are clear?  
Look at the road the world's gone done  
Can't we see that it's time'

(Chorus)

Teach us oh Lord, how to pray  
And be more like You  
Cause we want to stand before You  
Having done what You have called us to, yeah

And now it's time to pray, yeah  
It's time to pray, yeah

So let His praise resound  
As we all gather 'round.  
Let's lift our hands and call his name  
As we fall down on our knees to pray, yeah
