

# Triinu Kivilaan, Be with you

All my youth I've been on an endless road  
I've been on the run, searching just for you  
In my past I've walked down so many tracks  
Many tears I have cried, but I won't look back  
REFREN:

Just to be with you - just to feel with you  
Just to dream with you - Oh, that's all that matters on me  
To spend time with you - to make love to you  
Live my life with you - oh, that's all that matters on me  
In my world  
For your tenderness I'd give everything  
from the moment we met you reached into my soul  
In my loneliness, you're my wishing well  
In my thoughts you're the one I've waited so long

REFREN:  
Just to be with you - Just to feel with you  
Just to dream with you  
Oh, that's all that matters to me  
To spend time with you  
To make love to you  
Live my life loving you  
Oh, that's all that matters to me in my world
