

Triinu Kivilaan, Crucified

I feel crucified, livin day and night
So sad in desperation
Walkin on the line, holding back the time
And aims of my temptation
Walk through the door, break my wall
You wont fail again

REFREN:

I was crucified, tired from the fight
That takes away ma pain and harm
I was crucified, waitin for the light
That makes me feelin safe and warm
Cant you knock on my door
While Im dreaming
Please make me walkin again
As far as Im concerned, I hate the wage I earned
So far but I dont surrender
So much to explain, searchin for the gain
And gold so smooth and tender
Pass through the dark, spread the sparks
Just to save my world
