

Tripod, If I Had A Tattoo

If I had a tattoo
I would get one of you
Or at least of a generic woman's body
and draw your head on with a texter.

If I had a tattoo
I would get one of your name
Or at least I'd get the alphabet
and circle all the letters that I needed.

You know I wanna stay with you forever
Spend eternity with you.
There's nothing that our love won't last us through
But a tattoo, just seems so...permanent.

You know I wanna stay with you forever,
Spend eternity with you.
There's nothing that our love won't last us through
But a tattoo, just seems so permanent.

So I got a tattoo
From a temporary tattoo parlor.
The tattoo, it stayed on
but the parlor's gone...
