

# Tung Twista, No Peace Sign

(Tung Twista)

relaxin maxin to the maximum  
to tracks a hum  
the wicks where the stacks are from  
inside the styles of a funky lyrical wiz  
what a miracle is  
get down to spiritual business  
now my tounge kissed  
put words in your system wished em  
respect the blackness em  
give in em win em the peace they want  
but dont want the peace signs unless its in the mind  
become a victim because i kick em sick em  
supposed to be black but they be wack  
those who pretend to be a muslim i gooshed em  
positive ones i pushed em  
into the path or righteousness might get dissed  
those who pump a fist but aint right with this  
i increase rhymes wacks and weak minds  
if it aint real stop throwin up peace signs

(chorus 2x)

dont give him no peace sign if you dont mean it from your heart  
untied we can get over, yet were still apart

terror wished em ima terrorize elorize in disguise  
those for side for tizin and i begin  
to creepin seepin thought out unrighteousness and dissed  
connect of venomous gangs with the rhythmness  
figured they manifestin g i can address  
individually each emcee is throwin up peace but dont pray to the east  
i write the lect the soul should be playin towards mecca  
but snakes and devils wont letcha  
freestyle some religous free dump see  
to letcha know how come dumb some be  
ignorance a comish to look like a fish  
and since we whipped from bars to a ghetto priz  
ima wiz some brains i give em a brain washin  
when im walkin devils im squashin  
science fiction mixed in tricks in fixin  
the ways of all sort for good  
come in my fortress ima gonna force this  
'cause it holy dont try to fold me  
some just say peace tryin to the black guy  
some say peace thinkin it means bye bye  
so g if ya never mean this from the heart and the mind  
stop throwin up peace signs

(chorus)

lets walk the path of a vo-cab-ulary  
you'll cary the thoughts of every righteous man  
lets fight this plan of a other man  
waxin thoughts of a brother man  
satans waitin for us to be hatin each other  
sister brother or mother color  
blackness dont try to attack this fact this lets now practice  
true peace new salon one who is a peace  
cease when you see hunger than give peace  
blacks a supplied them and applied them identified them  
you suffer inhale and say why them  
'cause you did not follow the path that i layed out  
say blackness and get played out  
like children wildin some try to kick a fist

pick a fist i take a piss wikedness to get crushed up  
movin up on that bustop while stand inhale bustop  
so you must stop  
fakin the holy faith in wakin  
star dont come apart our hearts get a stake in  
so dont be mad so what minds to the minimum  
'cause in the em sendin em holy wisdom  
to let you know from the heart and the mind  
stop throwin up peace signs

(chorus)
