## Twista, Get Me

[Verse 1]

On a rainy dark early morn,

A lethal legacy was born,

Ask any rapper around

Bout the fuckin mics I left torn

But the game won't give me all my P's

And I wont leave the chi to get G's

Got love for my mc's at home

But some of them still hate on me

Look how many years I done repped

Hustle thru the streets in the Go

Inspired by the first rappers ever

Signed a contract a decade ago

Put chi name on records in the east

Put chi name on records in the west

Put chi name on records in the south

Bitch how you gone open yo mouth

To the mutha fuckin industry

Why you hate on me and my city

Will it be an imbalance of power if yall let chi niggas get G's

Or I it us holdin us back

Think hard when you rollin yo sack

Whatever the case my chi nigga

If it's in my means I got yo back

What the fucks really going on

Does a man bite cause he knows he on

Don't he know I 'v already established myself as Twista Coleone

Well I'm holdin my city down

Aint going nowhere here I stand

You know where I'm at if you hate me

If you want me

Hére I am

[Chorus]

Here I am, [4x]

Come and get Me [2x]

## [Verse 2]

Tell me what did I do to deserve

All of this madness around me found me in the studio burying myself in work smoking herb

Tried to kick me to the curb

To the back

To the ditch

To the dump

To the shack

But I sprint

To the front

In a llac

With a fifth and a blunt

And I'm back

In the bitch wit a pump

And I'm ready to bust at you hoes

Ready to dump lames in ditches

Steady makin fakers bleed

LB family handle business

Come and enter Twista's realm

Journey wit me thru the pain

The hurt just might make you envision drama that can turn you insane

How much of my chaos bring tears

How many threaten my career

How many threatin to murder me but bitch you know where I live

Who the fuck you think I is

Yall aint comin at no lil shawty

Why you think you can hurt like these years

Joe why my lil P's got you salty
Think you finna bring out my fears
Tell me why my success
Make you cry and why my downfalls make you laugh
I bet my hydro got you high
Never let hate back me down
Stand firm like a man
If you want me
Wanna kill me
Here I am

## [Chorus]

[Verse 3]

We got geo like neo and of course we as saucy as Morpheus

Or we as sick as sir Marcus aralias alias atheist

Against niggas who flow be the achiest

Against a aliens and why they hate me is maybe is cause I'm controlling this radius

Of this world and this whole universe

Don't believe let me spit you a verse

And just when you think you the worst

I come wit words that make you disperse

My allies know I'm too cold

My enemies know I spit fast

My lords know I 'll bust that thang

My gangsta's know I'll whoop some ass

Mobster family steady ride

LB family steady click

When us and other crews collide

Choose ya weapon take a pick

Load up

Click clack

It's on finna bust, get back

Run home come at me bogus get whacked wit a strap

To the back, of the dome

Industry niggas get gone

Heard yall be speakin big words

I'll show you some shit that a blow you down

Slow you down

Like you sip syrup

For chi sacrificial lamb

Right here I stand firm

If you want me

Here I am

[Chorus]
