

Ty Herndon, Thinkin With My Heart Again

I only needed coffee

Aisle four is where she caught me off guard

Seemed like a lifetime

Between her goodbye

And by the way how have you been

She talked about the weather

I thought of nights I held her so close

Oh there I go

Thinkin' with my heart again

Chorus

Her smile brought back the best times

Sweet memories of nights together

Stirring up those old feelings

That got me thinkin' 'bout forever

With her

She said I must be going

There's someone waitin' for me outside and I died
Oh there she goes

And here I go

Thinkin' with my heart again

Repeat Chorus

I only needed coffee

Aisle four is where she caught me

Thinkin' with my heart again
