

Tyga, Don't C Me Comin (ft. A.E.)

Dat shit comin
Dat shit comin
Think I'm running around my mansion
Nigga my family getting money
We be gettin money
Nigga's know we run established

Tats across the stomach
Bitches say they love it
Say I'm thuggin and I'm handsome
15 million singles sold
Who touch a hoe to make it nasty

Dat shit comin
Dat shit comin
Even Mommy know I'm flashy
Jesus show the worth
Daddy still in jail
Sister made me a bastard

Police wanna pat me
Niggas wanna dab me
Bitches love me like fashion

They don't wanna understand it
Cuz my ghetto manner show em who the fucking man is

They don't see me comin
They don't see me comin
You don't see me running, You don't see me thuggin

They don't see me comin
They just see me stunting
Push to the start, nigga I just hit the button

They don't see me comin
They don't see me comin
You don't see me running, You don't see me thuggin

They don't see me comin
They just see me stunting
Push to the start, nigga I just hit the button

Yo did you not see that fucking red light man

They don't see me comin
They don't see me comin
Run the light like DMX and belly
Machavelli, dark illuminati, talking crazy we gonna stomp em in the lobby

Fight night she just wanna party
Now we up in Dre's thats a hundred bottles

Crap table lost fifty thousand
When you work ems thats not a problem

They ain't see me comin
They ain't see me comin
When they see me all them niggas follow

Say you own all the shit you got
But the style you rock all borrowed

Getting money from day to day

I get paid like every tomorrow

Bitches I influence, niggas I influence
Who your fucking role model

Think I give a fuck about a motherfucking red light. Faggot cops can't touch me. That's me, untouch

They don't see me comin
They don't see me comin
You don't see me running, You don't see me thuggin

Going ball on you niggas
All my niggas gonna ball

Need a 100 bottles right now
I can hear the money talk

If you with me nigga, If you with me nigga
Let it go

Threw my set up one time
Niggas looking from the floor
