

Tyler Read, January

In passing glances
Take that look up off your pretty face
An evening
A midnight chance encounter
I hope you think about her until the daylight breaks into your skin

Happy new year
We made our resolutions and sentiments to last us while we're here
Happy new year
And you will always bring this on your-

In meeting
Remember these completions
Sentences, phrases, meanings
Too close to,
Too close to mine
You said all the obvious things but that
You speak so sincerely about it

Happy new year
We made our resolutions and sentiments to last us while we're here
Happy new year
And you will always bring this on your,
Bring this on your-

I hope you find it in you to remain civil
Beautiful but bandaged and you're scarred but sterilized
When your eyes fall from here,
And you will see everything

Happy new year
We made our resolutions and sentiments to last us while we're here
Happy new year
And you will always bring this on your,
Bring this on yourself
