Ultraspank, Where

There
Somewhere out there is a better day
Somewhere out there has to be
better than today hopes to be
Anyway

To be a part of anything Shows me what i've missed To be a part of all the answers... my wish.

Stand there before me With your emptiness, emptiness So true to form So true to all i've missed from you

To be a part of anything Shows me what i've missed To be a part of all the answers.... my wish.

I've run from you before and closed this door

To be a part of anything Shows me what i've missed To be a part of all the answers... my wish.

I'll miss you anyway... and i'll... miss you anyway.
