

Unida, Black Woman

Ride with me baby
Just ride all night long. yeah. (alright)
Heavy like my lady
Just fly all night long. yeah. (right on)
Some say that your crazy
That doesnt mean my face is always blue. Yeah (alright)

Chorus:
Should it be the answer should it be a sun?
Should it be the boy you never call your gun (yeah)?
Should it be the intro should it be the sun?
Can it be the black girl you never call at one?

So can you find my lady
Can you justify the love you see tonight? yeah. (right on)
So fly with me baby. just fly all night long. (right on) *uhh*

(Chorus x1)

You got it on, you got it on
Get it get it you got it
Black Woman... Yeah
