

# Unshine, For The Huntress And The Moon

She came here to find  
all the mysteries of life  
the reason  
for loneliness of heart  
he was the fate  
the beast of a prey  
the shelter  
for life and for her

It's time for the tears  
for rains of the fall  
a wait  
of countless years  
devotion and pain  
she knows that again  
her king will return  
for life and for her

I am all for you  
I am here all for you  
I am all for you  
I am here all for you

I surrender to you the hunter  
for the huntress and the moon  
most beautiful  
and scarifying queen  
I sanctify my love to you  
for the huntress and the moon  
cover me and see  
I am your queen
