## Uriah Heep, Skools Burning

Skools burning, it's burning down Burning down, burning down

Stand up, sit down
Don't turn around
Don't talk and don't smoke
Don't laugh, no joke
Too many rules, too many fools
Gonna raise it to the ground
We're gonna get high
Light up the sky
Gonna burn it down

Yes sir, no sir, 3 bags full Speak up or shut up Backs to the wall Stand in line, take it outside See the soldiers march in time Rollin' out of bed, fallin' on my head I think I'll pull the pin

Shape up, or ship out Your hair's too long

Yes sir, no sir, the same old song Stay after time and Learn all your lines Or write 'em out a thousand times I heard what you said Bells in my head I think I'll pull the pin

There's gonna be a party tonight People gonna come from miles There's gonna be a fire here tonight Gonna dance with the devil Till the dawn Dance with the devil till the dawn

Stand up, sit down
Don't turn around
Don't talk, don't smoke
Don't laugh, no joke
Too many rules, too many fools
Gonna raise it to the ground
Gonna get high, light up the sky
Gonna pull the pin
