

# Uriah Heep, Your Love

Your love ...  
I've got to do it  
Gotta find a direction in my life  
You can't have me through it  
I know that you do it  
But it's my fight

Why don't you leave me alone  
To drive down this windin' road  
I'm alive  
It just doesn't feel the same  
For my love for you has changed

But your love  
It never leaves me alone  
For your love

Is in the world of it's own  
But your love  
It never leaves me alone

You're sayin' that you need me  
But the words don't come easy  
Just hold on  
I know that I lied  
When I told you goodbye  
Just keep hangin' on

Time won't keep waiting'  
I've gotta do something with my life  
You can't have me through it  
But I know that do it  
But it's my fight
