

# Usher, Dive

I know you think I'm afraid  
To take a chance, and go to the deep end  
Usher baby  
Turn the lights on

These waters can get a little busy  
But I got experience  
Don't mind trekking to the storm  
Long as I know that you're here with me baby  
Shedding all your innocence  
I see the walls are looking like they might precipitate  
Until I'm in so deep, it's up to my waist  
But I promise girl I ain't afraid

It's raining inside your bed  
No parts are dry  
Loving makes you so wet, your legs, your thighs  
And ever since we first met I knew that  
I, I knew I was ready baby to take that dive

Can't help it, no  
I want you to feel me  
Every little bit of me  
I don't need a life saver  
Baby going deeper ain't gon kill me  
And I know the rush you get from me  
I see the walls are looking like they might precipitate  
Until I'm in so deep, it's up to my waist  
But I promise girl I ain't afraid

It's raining inside your bed  
No parts are dry  
Loving makes you so wet, your legs, your thighs  
And ever since we first met I knew that  
I, I knew I was ready baby to take that dive

I'll be inside when the tides are rolling baby  
You'll be my place tonight, all night  
I'm not afraid to try  
And knew i, don't mind playing in the rain  
And I was hoping that I get to take that dive

It's raining inside your bed  
No parts are dry  
Loving makes you so wet, your legs, your thighs  
And ever since we first met I knew that  
I, I knew I was ready baby to take that dive
