

# Usher, Milk Carton

Your body's like hocus-pocus baby,  
It's magical to me  
Do me a favor, come here and pinch me baby  
I wanna make sure we're in the same dream, dream

I said it's just like fire  
Shut up in my bones,  
'Cause you just take me higher  
I can treat you one last dance

I've got a house but I want a home,  
I've got a heart, but it's full of stones  
What they say it's true, pick a line  
Don't nobody knows what's going on, what's missing it's you babe  
You babe, what's missing is you, babe  
I'm about to put your face on a milk carton

It's been about all my life's with ya  
Cause I been living beneath my means  
We fit to my situation  
Yeah you're the ... peace  
Know what I'm talking about babe  
I said it's just like fire shut up in my bones  
'Cause you take me higher  
I can treat you one last dance

I've got a house but I want a home,  
I've got a heart, but it's full of stones  
What they say it's true, pick a line  
Don't nobody knows what's going on, what's missing it's you babe  
You babe, what's missing is you, babe  
I'm about to put your face on a milk carton

What's missing it's you babe  
You babe, what's missing is you, babe  
I'm about to put your face on a milk carton

I've got a house but I want a home,  
I've got a heart, but it's full of stones  
What they say it's true, pick a line  
Don't nobody knows what's going on, what's missing it's you babe  
You babe, what's missing is you, babe  
I'm about to put your face on a milk carton
