</lyrics>

When I hide myself in the crowd
holding the headphones to my ears,
I feel that I have already disappeared.

I want to dance
to the music
which absorbs even my footsteps
until forgetting a quarrel and you .

When I return to the messy room,
I realize loneliness
in your existence.

Though I am kind
not for someone
but only for myself!
If I'm lonely, I cannot feel loneliness.
Therefore For you
I want to give the same solitude to you
so that you may strengthen
and so that you may reach someday.
Therefore I sing this song for you.

In the morning when I don't want to get up,
I get up for your face.
At the night when I cannot sleep,
I hum the song which you gave to me.

Don't mistake!
Since I don't intend to depend on you
especially at all.

If there is a song which I can sing
not for someone
but only for myself,
I don't want to learn such a song.
Therefore For you
Though I am used to it!
Though I can be obedient!
When I am misunderstood, I feel as if I would burst.
Therefore I sing this song for you.

I want to make you cry.
Please let me injure you, I will cure you.
When I want to fly;
You always give me a brighter sky.
You want to make me cry.
The joy which you taught to me by sadness.
When I want to shine;
You always give me a darker sky.
