

Val Emmich, Privacy Attracts A Crowd

Don't be here
Just get out
Busy body idiots always have to ruin it

Don't be here
It's not your place
Everybody wants to see
What's behind the mystery

You look at how the rumors fly
Attract a crowd like bugs to light
This used to be
Our retreat
How easily they took it

Privacy attracts a crowd
People want to go where they're allowed
Privacy attracts a crowd
Do us a favor and get out

Everybody wants to see
Whats behind the mystery
Don't be here
Just get out
Busy body idiots always have to ruin it

You look at how the rumors fly
Attract a crowd like bugs to light
This used to be
Our retreat
How easily they took it

Privacy attracts a crowd
People want to go where they're not allowed
Privacy attracts a crowd
Do us a favor

You people came
And ruined a good thing
You people came
Out of nowhere
You people came
And ruined a good thing
You people came
Out of nowhere

Privacy attracts a crowd
People want to go where they're not alone
Privacy attracts a crowd
