## Valentine, Fight For You

Forget you, forget you, forget you

Do you remember the time we had? That is just something I cant forget I always have to think of the love you spread And I hope that I will get you back Now I know what Ive got to do...

I have to fight for you when youre by my side my dreams come true and I will always love you I will never, never forget you

Forget you, forget you, forget you

You were the first who taught me to love and the first who taught me to cry since you have left me I lost the stars above which were symbolizing a "you'I" Now I know what Ive got to do

## Chorus

Fight for you (I will never forget you)... I will never forget you
