

Valentine, Where Are You Now

Wonderin' where I've seen your face
I can't place it
Knowing the time but not the place
I'll retrace it
Trying so hard to find the answers in my mind
Trying so hard I know it's you that I long to find

You are the one, ooh, I've been waiting for
The time has come and I can't hold back anymore

Chorus:
Where are you now, do you still shine
Or am I just another love you left behind

All of my past just turns to grey
You know I can feel it
But if I had you here today
You know I'd reveal it

'Cause you are the one, ooh, I've been waiting for
The time has come and I can't hold back anymore

Chorus:
Where are you now, do you still shine
Or am I just another love you left behind
Where are you now, tell me can you feel it
I still need ya baby, where are you now

The feeling can go away and leave you alone
Sometimes that feeling gets so strong

(Chorus)
